**End of Phase 1 Training Notes**

The boy has shown an aptitude to violence and has been known to show aggression towards his fellow Predators. Initially, he was quiet and withdrawn. He took a few months to show that he had the required aptitude for being trained as a Predator. The initial indoctrination phase was accomplished without any issues and Aiden is deemed suitable both academically and qualification wise to proceed to Phase 2 training. While his academic scores have not been exceptional, they are perfectly adequate for his intended purpose and for his age range. He has excelled at Weapons Training and has a good eye on the range. His more physical training has been slow, mainly due to his size and upper body strength – this should improve as the boy gets older.
